Founded in 1978, in the City of Pedro Juan Caballero, in Paraguay, OGA Construções S.A.R.L., is a company with great experience in the Civil Construction.

In almost 40 years of activity, several projects have been carried out with recognized success, possessing a paradigm of action that excels for excellence.

Thanks to the prestigious position and extensive experience gained, in 1989 it expanded to Africa, forming a new company based in the City of Maputo, Mozambique. With all the necessary infrastructure for the execution of public and private works, innovative equipment and a strong team of specialized professionals that allows it to work in any point of the world, OGA Construções has executed different projects of the public administration, having in hand, at the moment, several construction works of schools and other public buildings in different provinces of Mozambique.

Regardless of the size or complexity of the work, OGA Construções works to provide the best technical solutions.

In addition to strict compliance with quality requirements, OGA Construções offers guarantees that are of vital importance, such as meeting deadlines and construction costs.

The experience acquired by OGA Construções also allows you to guarantee the realization of any project, regardless of the geographic location or the degree of technical requirement that it presents, as demonstrated by the work done and recognized.

Quality of construction. Quality of life.

The technical competencies and installed capacity of OGA Construções are in different areas, such as the construction of education, culture and sport infrastructures, industrial, health and care facilities, residential buildings, offices, hotels and tourism, restoration and remodeling of buildings.

OGA Construções also carries out technical installations for electricity, telecommunications and ventilation. Involved in the most important projects carried out in Mozambique, OGA Construções has a very broad portfolio of clients and a relevant experience in construction in our country. At present, after the construction of important buildings such as INTELEC, OGA Construções is committed to building its own headquarters building in the center of Maputo City.
